Telecommunications (Interception Capability and Security) Act 2013

TICSA

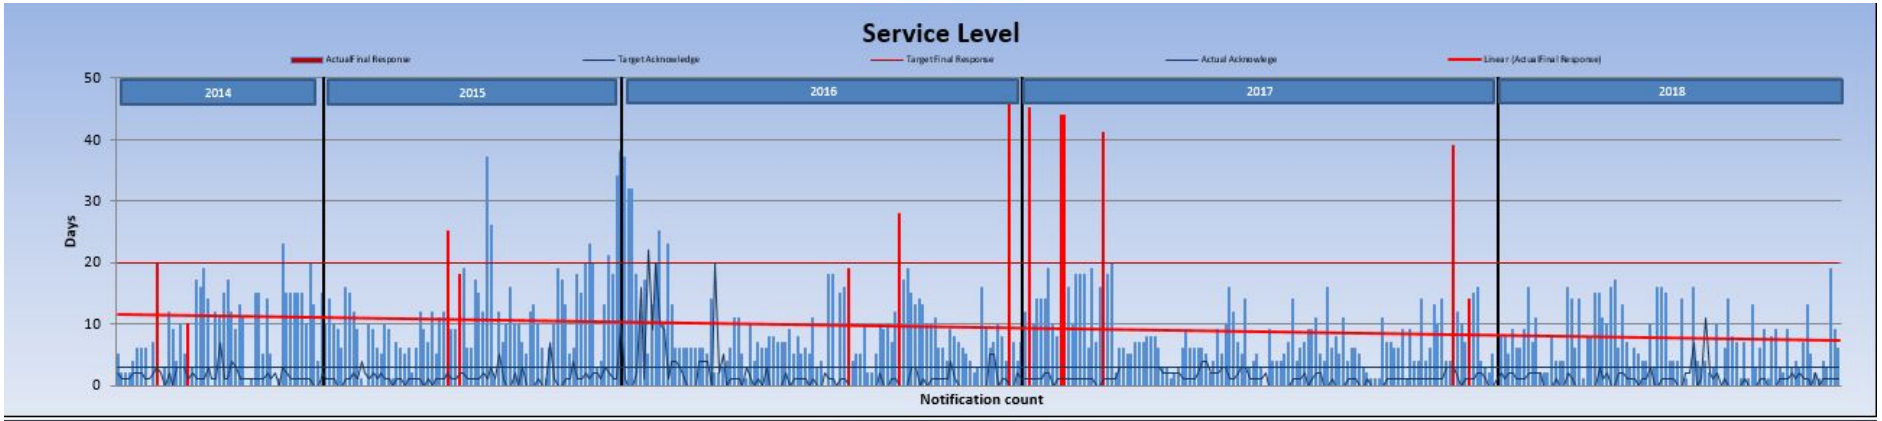
NZNOG 29 January 2018 ??

Part 3 of the TICSA applies to all operators – regardless of size

- **Section 50 of TICSA**

  (i) central or local government services:
  (ii) services within the finance sector:
  (iii) services within the energy sector:
  (iv) services within the food sector:
  (v) communication services:
  (vi) transport services:
  (vii) health services:
  (viii) education services

2014 – 2018 Service Levels and Cases



TICSA Process

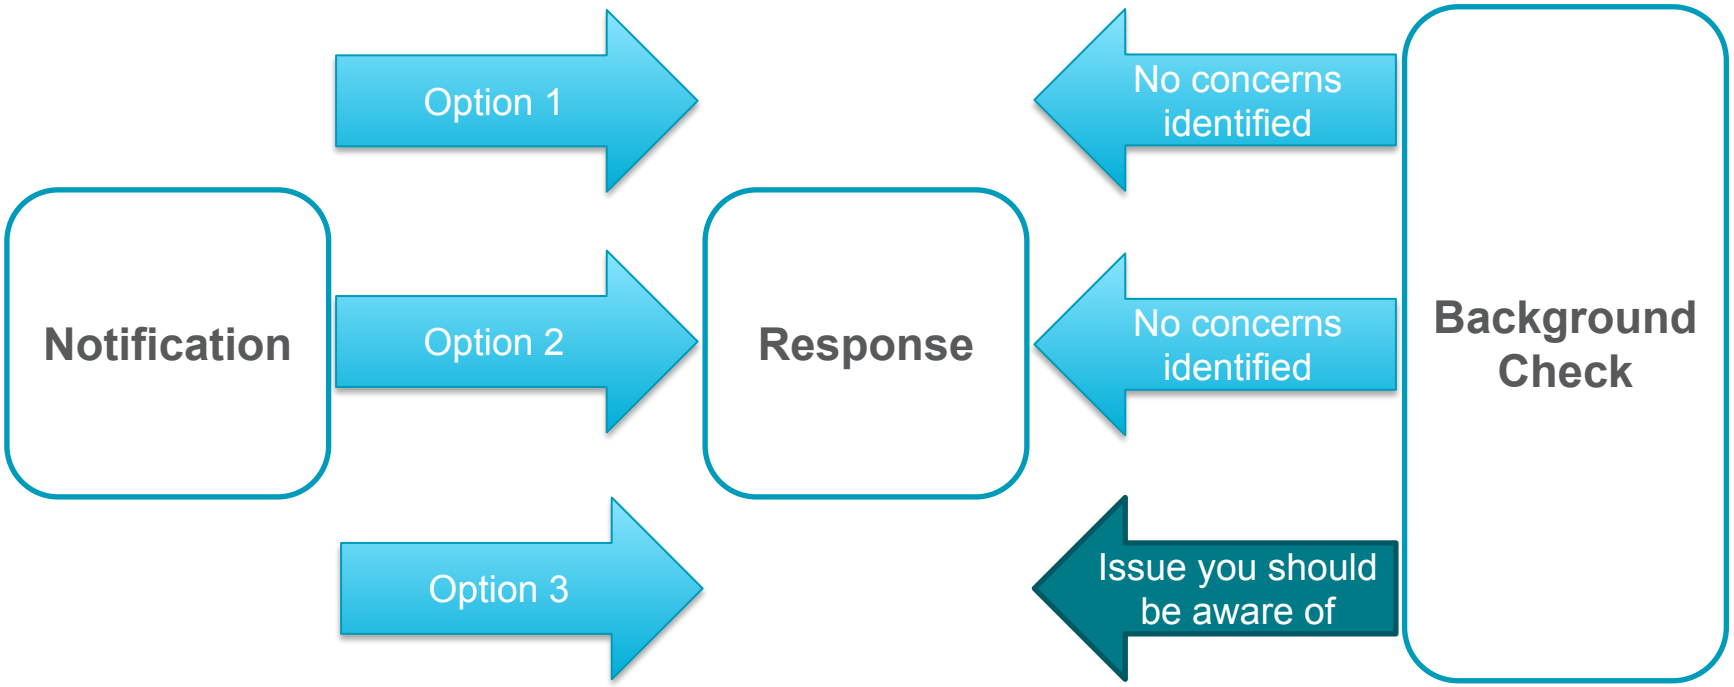
Notification	Response	3 Day SLA *
Questions / answers	Consideration	20 Day SLA *
Risk Found? Y/N	Mitigations	No SLA

*** Magic "working days"**

Mitigations

- Will include more interaction with the TICSA team
- Can delay the deployment by a significant time frame
- Can move from “good controls” to “best practice”
  - Are for the lifetime of the product
- Will raise the total cost of ownership for the product

What we suggest is this *



Section 50 Services

(i) central or local government services:

(ii) services within the finance sector:

(iii) services within the energy sector:

(iv) services within the food sector:

(v) communication services:

(vi) transport services:

(vii) health services:

(viii) education services

TICSA – Network Security and LI

LI systems are considered under TICSA section 3
You should consider:

- Whether the systems can be used for unwarranted access
- Can others find out about the intercept or the intercept target.
- The who and how access will be given or controlled.

Up-date of the TICSA Guidelines
